Questions and Exercises

1. Overview: The Kingdom of God and Divine Healing

1. Describe some instances in which you or someone you know has experienced divine healing, or you have prayed for someone who got healed.

2. Are there particular elements that you think are critical to healing (E.g. repentance, prayer, fasting, deliverance, scripture, faith, love, particular person, particular spiritual gifts (words of wisdom or knowledge), the name of Jesus, God's providence)? Is there a 'formula'?

3. Do we really think that 'everyone should play' in praying for the sick, or are we more comfortable with people who have particularly strong 'healing gifting' and believe that something is more likely to happen when they pray?
